Domaine Jean-Marie Bouzereau (Burgundy - Meursault)

There are many families of Bouzereau in wine in Meursault but Jean-Marie is the smallest with 8.5ha of which two thirds are chardonnay & one third is pinot noir. Domaine Seguin-Manuel (Burgundy - Thibaut Marion)

“Beyond my deep respect for the vineyards and wines of Burgundy, I never forget that this divine beverage is meant to share moments of friendship.” Thibaut Marion
The drive for high quality can be seen from the vineyards to the wine bottling. There is respect for the environment, terroirs and wine in each step of the production. In the vineyards : organic growing, no use of chemicals, ploughing the soil, reducing the yields thanks to strict pruning and green harvest, hand picking in small cases. In the winery : sorting grapes on a table, natural fermentation in oak, temperature control, maturation in oak, bottling without filtration at the best time for the wine.
